

**DEADLINE FOR THE NEXT APPLICATIONS:
April 1st, 2018
EFEM Travel Grants call**

The stated purpose of the European Federation for Experimental Morphology is the advancement of science and education related to experimental morphology in the European region. This is achieved, *inter alia*, through promotion of information exchange, both scientific and professional; encouraging joint meetings, supporting scientific training and exchanges; organizing the EFEM Lecture; facilitating training programmes in morphological education; and considering ethical matters pertaining to morphology.

The EFEM is offering up to 2 research travel grants, each of €750, for 2018. In accordance with the EFEM Statutes §2 [web address:www.efem.eu]

The objectives include stimulation and facilitation of

- training [scientific and professional]
- international scientific research projects in morphological fields.

The Grants are intended for travel between anatomical institutes in Europe.

Applicants shall be active members of a Constituent Society of the EFEM which has paid its annual EFEM membership dues to date.

Closing date for applications is Sunday, April 1st, 2018

Applications should be made to the EFEM Secretary General and should include a CV and covering letter explaining the application.

Dr Claire Smith

Head of Anatomy

Brighton & Sussex Medical School
