

II CONGRESO INTERNACIONAL
DE DONACIÓN DE CUERPOS
UCR-UNAM-UCM

Dear Colleague,

The Organizing Committee is pleased to invite you to the fully virtual “II International Congress of Bodies Donation”, which will take place from Monday 18th to Friday 22nd, October 2021.

This activity aims at creating a space of dialogue for both professionals and students in the field of health sciences and any other related area. Our goal is to highlight the importance of Body Donation Programmes as well as to foster new teaching and research programmes fully inspired by an appropriate set of ethical rules in educational institutions.

Here is the list of topics that will be addressed throughout the congress:

- Creation and management of donation programmes
- Conservation techniques
- Professionals involved.
- Donation programmes around the world
- Donors: experiences and new challenges

Since we will have the participation of various specialists from different countries, we are sure that the academic exchange will be of great importance.

For further information, please consult the web site:
